Why should my College become an Student Expressware Affiliate?

- By joining the Student Expressware affiliate scheme you will be benefitting your students. All that we ask in return for giving your College a percentage of the sales bought by its students, is to encourage your students to purchase our discounted software products by means that you feel are appropriate.
- So in short, by joining our affiliate scheme your College can earn money and also benefit students by saving them money on their software purchases.

How much can the College earn being an affiliate?

- This will depend on how much software your students purchase. How much you earn is dependent on how well your College promotes Student Expressware and encourages students to buy.
